CARE FOR WORK ENVIRONMENTS®

PREVENTATIVE MAINTENANCE

Don't wait for backups or overflows to occur. Wherever grease build-up occurs and drains begin to smell, preventive maintenance with Grease-B-Gone Select is the answer! Don't take a chance on incurring the expense of snaking lines or costly pump-outs. Regular drain maintenance with Grease-B-Gone Select keeps potential drain issues away and saves money, compared to emergency cleanouts.

APPLICATIONS

Kitchen drains, bathroom drains, shower drains, bar drains and grease traps.

DIRECTIONS FOR USE:

DRAIN MAINTAINER: To clear grease build-up in drains, pour 8 ounces (½ pint) of Grease-B-Gone Select. Allow to stand for one hour. Flush with hot tap water. GREASE-B-GONE SELECT will effectively dissolve grease and soap scum deposits in drains, pipes and grease traps. In garbage disposals, allow to stand for 5-10 minutes. Flush with hot tap water. Do not allow to stand in plastic pipes.

DRAIN & GREASE TRAP MAINTENANCE: To prevent grease build-up in grease traps and drains, pour 8 ounces (½ pint) of Grease-B-Gone Select per gallon of water. Allow to stand for one hour. Flush with hot tap water. Grease-B-Gone Select can also be automated through our 24/7™ Drain Care System. Just as little as 10 oz. per day will keep your drains and grease traps free flowing.

TECHNICAL DATA:

APPEARANCE: colorless to pale straw colored liquid

ODOR: pleasant citrus odor

SOLVENT PRESENT: natural citrus and soy based solvents

FLASHPOINT: 135°F

EFFECT ON BENEFICIAL DIGESTIVE BACTERIA IN SEWAGE SYSTEMS: none

BIODEGRADABLE SOLVENT: yes

NOTE: Use caution when applying to plastic or PVC pipes. Standing product may cause leakage at plastic plumbing joints.

**USDA Biobased certified*

**NSF certified as C1 for non-food processing areas*
