SANITIZER
MULTI-PURPOSE SANITIZER

Avance™ Chlorine Sanitizer is a liquid, EPA registered sanitizer specifically formulated for use in low temperature dishwashing machines. Because Avance™ Chlorine Sanitizer is EPA registered, you can be confident that you are meeting Health Department standards. Avance™ Chlorine Sanitizer is 6% active sodium hypochlorite.

Avance™ Chlorine Sanitizer can also be used for these applications:

- Sanitizing food contact surfaces
- Deodorizing garbage cans
- Sanitizing nonporous food contact surfaces
- Sanitizing eating and drinking utensils
- Laundry sanitizing

DIRECTIONS

Avance™ Chlorinated Sanitizer is designed to be dispensed with equipment installed and/or approved by your State representative. Good product performance is dependent on many operational factors such as soil load, water temperature, wash procedures, injection nozzles and mechanical action in the machine. Your service representative will evaluate your soil load and warewashing machine to determine the correct product dosage for your system that will optimize product performance.

For Sanitizing in Low Temperature Dishwashing Machine:
Dispense Avance™ Chlorine Sanitizer into the final rinse water at 100 ppm available chlorine. Do not allow concentration to fall below 50 ppm. Air dry. Only a qualified service representative should set or adjust dispenser in the machine.

For specific use directions in other applications please see the product label.

DO NOT MIX WITH AMMONIA - DO NOT MIX WITH ACIDS.

Please review label and SDS for all product directions, precautions and first aid information.

TECHNICAL DATA

APPEARANCE: clear yellow liquid with chlorine odor

pH (Concentrated): 11.5

DENSITY: 9 lbs/gal

SODIUM HYPOCHLORITE: 6.0%

EPA REGISTRATION: 1672-65-84423
70799-13-84423

PACKAGING

127334	55 GL Drum
125407	15 GL Drum
117605	5 GL Pail
117604	1 GL Bottle/ CS4
