INDUSTRIAL LUBRICANTS
Solutions

CUT™
CUTTING, LUBRICATING AND COOLING FLUID

- Contains lubricating and cooling agents
- Reduces friction
- Perfect for cutting tools and material

CUT™

CUTTING, LUBRICATING AND COOLING FLUID

MULTI-PURPOSE
State CUT is specifically designed to lubricate, cool and protect tools and materials used in all cutting, threading, tapping and drilling operations.

PROTECTS AND PRESERVES
State CUT contains special inhibitors to protect against rust and corrosion. The unique combination of coolants and lubricants reduces friction and disperses heat build-up. This action provides cleaner, smoother cuts. Cutting edges remain sharp longer and helps to extend tool life.

VERSATILE
Reinforced cutting compound is ideal for steel, stainless steel, aluminum, brass, copper, nickel, monel, spring steel, chrome steel and other metals. Do not use on beryllium, titanium or tantalum.

ECONOMICAL, REDUCES WASTE
State CUT is specially formulated to eliminate spillage, dripping, evaporation and runoff. State CUT stays where it's sprayed. The jet stream spray reduces splash and permits State CUT to be sprayed where it's needed. This eliminates costly overspray.

APPLICATIONS
- Boring
- Honing
- Drilling
- Reaming
- Gear Grinding
- Broaching Operations
- Gear Hobbing and Shaping
- Matching
- Milling
- Planning
- Profiling
- Tapping
- Threading

TECHNICAL DATA:
APPEARANCE: aerosol foam spray
COLOR: brown
ODOR: mild petroleum
PROPELLANT: does not contain Chlorofluorocarbons
SHELF LIFE: minimum one year
SPECIFIC GRAVITY: 0.92
COLD STABILITY: 0°F

PACKAGING

121178-12	16 OZ Aerosol/CS12
121178-24	16 OZ Aerosol/CS24
