CARE FOR WORK ENVIRONMENTS®

FOAMING DEVOUR™

Foaming Drain Maintainer

POWERFUL COMBINATION

Contains natural bacillus bacteria and citrus oil for efficient cleaning and odor elimination. The citrus oil quickly breaks down the organic matter, making it easier for the bacteria to digest it. The only byproducts of this powerful combination: carbon dioxide and water. Cleaning that's environmentally-friendly and effective!

USE ANYWHERE

From floor drains to sink drains, Foaming Devour™ is harmless to any type of plumbing and disposals. Plus, it will not have any effect on septic or wastewater treatment systems. Use in any drain system with zero worries.

EASY-TO-USE

Just attach the 24" tube to the nozzle and feed the tube into the drain. This allows Foaming Devour to quickly get to the problem area and get to work. The drain line will quickly foam and expand into the entire inside of the drain line, insuring the best results possible.

DIRECTION FOR USE

Attach the 24" tube to the spray nozzle. Direct the tube down the drain, or the condensate drain, towards as close to the clog as possible. Spray liberally. Allow ample time for product to penetrate and break down the clog. Rinse the drain with water to flush product. Re-apply product periodically to maintain and keep the drain free flowing.

NOTE: TO PROTECT AGAINST SPLASH-BACK, WEAR EYE PROTECTION

TECHNICAL DATA

APPEARANCE: foaming aerosol

COLOR: milky white

ODOR: citrus

MAXIMUM SHELF LIFE: 2 years
