

DRAIN CARE *Solutions*

D-STROY® Odor Destroyer and Drain Maintainer

- Maintains and deodorizes drains
- Bacteria-based formula that breaks down organic material
- Dozens of cleaning, stain removal and deodorizing applications

CARE FOR WORK ENVIRONMENTS®

D-STROY®

Odor Destroyer and Drain Maintainer

SAFE, BIOLOGICAL POWER

D-Stroy's unique formula harnesses the power of live bacteria to digest and eliminate organic waste. These powerful bacteria produce trillions of enzymes that break down organic matter such as proteins, carbohydrates, cellulose, fats, oils and greases which are the principal causes of odors, stains and drain clogs. The bacteria then digests the broken down waste completely and multiply to continue eliminating stains, odors and drain clogs.

In addition to its biological action, D-Stroy contains SE-500™, an odor neutralizing additive that eliminates odors rather than just masking them. D-Stroy's formula is completely safe for users and all facility areas. It contains no acids, alkalis or solvents and is non-corrosive and non-toxic.

KEEPS DRAINS FREE-FLOWING & SMELLING FRESH

D-Stroy provides preventive maintenance to all types of drains. Its powerful blend of bacteria breaks down and digests organic debris such as fats, oils, greases, uric acid and crystals, soap scum and hair. Regular use of D-Stroy keeps waste from accumulating in the drain system and causing blockages. D-Stroy also eliminates the foul odors associated with drains.

ELIMINATES STAINS AND ODORS

D-Stroy can be used in every facility area to eliminate stains and odors. Simply spray where odors persist and let the biological action, fragrance and SE-500™ work to destroy even the toughest odors. Perfect for restrooms where uric crystals build up around toilets and urinals, as well as near garbage cans where accumulated waste causes odors. Use D-Stroy on stained carpets and linens to clean blood, makeup, urine and other organic stains.

APPLICATIONS

There are many applications for D-Stroy, but common application areas are:

- Animal cages
- Dishwasher drains
- Floor drains
- Laundry drains
- Septic tanks
- Bus and plane toilets
- Bar sinks
- Drains
- Garbage disposals
- Locker rooms
- Showers
- Carpeting
- Dumpsters
- Grease traps
- Portable toilets
- Toilets and urinals

TECHNICAL DATA

APPEARANCE: milky, emulsified liquid

AVAILABLE FRAGRANCES: Original, Morning Fresh™, Apple Orchard, Coastal Dreams

pH: 7.0-8.5

TEMPERATURE STABILITY RANGE: 55°F-100°F for optimum performance

BACTERIAL COUNT: 20 billion per quart or 100 billion per gallon

BACTERIAL PATHWAYS: aerobic and facultative anaerobic

STABILITY: 2 years
