- Deodorizes virtually any space with malodors
- Leaves a fresh, pleasant fragrance for future occupants
- Neutralizes odors up to 6,000 cubic feet

CARE FOR WORK ENVIRONMENTS®

STATE[®] FRAGRANCE BURST™ TR

PURPOSE

Cleaning or turning over rooms and spaces after occupants or events have vacated can be a pain. Sometimes, no matter how well the space is cleaned, bad odors linger, causing complaints from the next tenant. Fortunately, State's Fragrance Burst TR (total release) air freshener makes difficult turns and "make-readies" a thing of the past.

MARKETS/APPLICATIONS

The Fragrance Burst TR is recommended for use in hotels, motels, commercial office buildings, apartment complexes, hospitals, nursing homes, day care centers, funeral homes and more. Simply activate the can, move on to the next task and return later to find a freshly fragranced room.

DIRECTIONS FOR USE

Fragrance Burst TR can only be used in temperatures greater than 50°F (10°C). This product can be used as a total release air freshener; also known as a fragrance fogger. The contents of the can will be dispelled simply by clicking the nozzle in place. This five ounce can packs a punch, covering up to 6,000 cubic feet in one treatment. Alternatively, this product can be used for quick, on-the-spot deodorization by depressing the trigger lightly.

DIRECTIONS FOR USE

Place can on raised surface near middle of room. Spread paper below can for protection. To lock valve into open position for total discharge, press valve button all the way down, locking the catch. Place fogger down and immediately leave the room. Do not disturb for at least 2 hours. Ventilate room for 30 minutes before re-entering.

DO NOT use more than one fogger per room. DO NOT use in small, enclosed spaces, such as closets or cabinets. DO NOT use in a room 5' by 5' or smaller. Turn off ALL ignition sources, such as pilot lights (shut off gas valves), open flames or running electrical appliances that cycle off and on. Close all windows and turn off air conditioning or heating unit.

TECHNICAL DATA

APPEARANCE: off white solvent-based aerosol

STABILITY: one year minimum

FLAMMABILITY: extremely flammable aerosol

pH: 7

VOC: meets all current VOC standards.

AVERAGE COVERAGE: 6,000 cubic feet (169 cubic meters)

MINIMUM USE TEMPERATURE: 50°F (10°C).
