Bug Beaders

GROUNDS INSECT REPELLENT

HOW DO BUG BEADERS WORK?

The active ingredient, Geraniol, is infused into the corncob base and given off as a time-released vapor. The vapor shield repels insects several feet away, before they land.

Corncob is very absorbent and tends to hold more odor-killers and insect repellent than other brands on the market that use rock as a base material. Corncob is also a biodegradable material so it won't add waste to the soil.

ARE BUG BEADERS SAFE?

Bug Beaders do not contain DEET or any other pesticides. The active ingredient, Geraniol, is considered to be GRAS (Generally Regarded as Safe) by the EPA and FDA and is included in exempt product listings. Products comprised of active and inert ingredients taken from the EPA Exempt List are considered safe for public use and do not require EPA registration.

HOW DO BUG BEADERS COMPARE WITH OTHER REPELLENTS?

Bug Beaders repel insects before they land. Placing them in strategic locations throughout a facility will drastically reduce the amount of pest activity. Just apply them in the desired areas and forget about them! Plus, Bug Beaders leave no residue and smell fresh.

HAS THE EFFECTIVENESS OF GERANIOL BEEN PROVEN?

Geraniol was discovered and tested by the University of Florida (UF). Testing by the UF confirmed that Geraniol is an excellent insect repellent and is superior to many products containing DEET.

BUG BEADERS REPEL THESE PESTS:

- Mosquitoes
- House flies
- Stable flies
- Horn flies
- Head lice
- Cockroaches
- Fire ants
- Gnats
- Dog ticks
- Lone star ticks
- No-See-Ums

APPLICATIONS:

Great for playgrounds, concerts, fairs, parks, or other outside activities. A great, clean smell is an added bonus.

TOSS BUG BEADERS IN:

- Outdoor eating areas
- Entrances to buildings
- Security sheds
- Garbage trucks
- Construction equipment
- Lawnmowers on golf courses
- Farm equipment

DIRECTIONS:

- Remove Bug Beaders Grounds Insect Repellent from its sealed two-part reusable container (save container for storage).
- Apply Bug Beaders Grounds Insect Repellent where needed.

ACTIVE INGREDIENT: Geraniol 2% by weight

INERT INGREDIENTS: water, corncobs, sodium lauryl sulfate. 98% by weight
