

# AIR CARE *Solutions*

Innovative air care, ambient scenting and odor elimination technologies that deliver results and create positive impressions

Care For Work Environments®

[stateindustrial.com](http://stateindustrial.com)

## Innovative Technologies & Proven Experience

It is proven that foul odors leave an undesirable impression on your customer, visitors and employees. State Industrial Products offers a wide range of innovative technologies and programs that have led the industry in ambient scenting and odor-eliminating solutions since 1911.

## Commercial Solution Systems

### Fragrance Cube Family

#### Fragrance Cube™ 2-6

Odor-neutralizing and scenting solution for small, indoor spaces, ranging from 2,000 to 6,000 cubic feet with just one unit. This advanced dispenser utilizes cold air diffusion technology, consistently delivering a completely dry, scented vapor with no decline in fragrance over time. Featuring a battery-operated system, the Fragrance Cube 2-6 can be placed anywhere in your facility.

#### Fragrance Cube™ 6-15

The ideal solution to treat indoor, medium-sized spaces ranging from 6,000 to 15,000 cubic feet. Common areas will smell fresh and inviting, providing the best experience and first impression for guests, customers and residents using the same the dry vapor technooogy as the Fragrance Cube 2-6.

#### Fragrance Cube™

Designed to maintain odor, the State® Fragrance Cube™ produces ambient scents in medium to large indoor spaces from 10,000 to 150,000 cubic feet. The Fragrance Cube's sleek design allows it to inconspicuously fit any décor with consistent scenting that will enhance your brand and increase customer satisfaction.

#### Fragrance Central™

The State® Fragrance Central™ was designed to utilize cold-air diffusion to convert our fragrances into a dry vapor directly into the air ducts of a facility. The Fragrance Central has customizable programming, which allows it to consistently produce a pleasant scent for areas 100,000 to 750,000 cubic feet.

# Commercial Solution Systems

## Fragrance Factory®

State's innovative Fragrance Factory provides around the clock odor elimination, making it the perfect solution. This attractive dispenser mounts to the wall and utilizes unique fragranced gel paks, which contain our SE-500® odor-neutralizing additive, to produce a wide range of pleasant scents. The unit has a whisper quiet fan that delivers the fragrance and odor removal power throughout the area to provide continuous air enhancement. The Fragrance Factory is ideal for restrooms, lobbies, hallways, offices or anywhere odors persist.

## Fragrance Burst™

Designed to produce controlled bursts of fragrances infused with our odor neutralizer, SE-500®, the Fragrance Burst offers odor neutralization to areas vulnerable to various odors. The dispenser can be programmed to meet your needs, making it the perfect solution for medium sized indoor spaces up to 4,000 cubic feet, such as locker rooms and large restrooms. With a wide variety of scents to choose from, the Fragrance Burst will produce a memorable aroma for up to 30 days.

## B.O.A.™

B.O.A. provides invisible odor neutralization through air handling systems. Also known as the Bad Odor Annihilator, this product is equipped to treat 10-30 ton air handlers and eliminate troublesome malodors while leaving behind a fresh fragrance. B.O.A. will neutralize odors for up to 45 days, depending on the amount of air flow.

## Spot Application & General Odor Control

### State Gel Genie™

State Gel Genie is a concentrated deodorizing gel that produces a pleasant scent as it gradually evaporates. The formula was designed to cling to a variety of nonporous surfaces without leaving any residue, giving you the ability to apply as much as you need. Available in a variety of scents.

### Ecolution® Odor Remover - Crisp Linen

Ecolution® Odor Remover was designed to be sprayed where odors linger such as carpets, drapes, garbage cans or in the air. Its unique, super-concentrated formula contains our SE-500® odor neutralizer, is EPA Safer Choice approved and can be dispensed through a dilution or fogging system.

### Kontrol®/Kontrol® SE

The Kontrol® line of deodorizing products eliminate and replace malodors with a pleasant fragrance. All Kontrol® scents utilize our SE-500® odor neutralizer to overpower and eliminate even the toughest odors like tobacco and fire smoke.

### Odor Beaders™

These compact mesh bags contain highly fragranced beads that will add a burst of pleasant aroma to any area. Each bag uses SE-500® and can be placed anywhere odors persist.

### Air Savors™ and Air Savors™ Eco

Air Savors a non-aerosol air freshener contains zero propellants, making it safe for you and the environment. The compact, modern design fits on any counter and complements your space. As economical as it is powerful, a single can contains 1,500 sprays. Air Savors eliminate different types of foul problems across any space in your facility.

### Trade Winds®

Our Trade Winds® aerosols freshen the air, penetrating the fibers of the drapery, carpeting and other odor carrying fibers, leaving no residue behind.

## Industrial Odor Elimination

### State Fresh Zone™

The State Fresh Zone Odor Control Fogger is specifically designed to efficiently and effectively distribute our concentrated liquid odor control product that is specifically formulated to maintain industrial odors. State Fresh Zone Fogging system uses a high pressure pump to develop the fog needed for effective odor neutralization. It is ideal for trash chutes, trash compactors, loading docks, garage doors, lagoons, fields and open areas.

### Trash Room Program

#### Cherri-D™

Cherri-D was designed to neutralize unpleasant smells common to sewage treatment plants, lift stations, rendering plants, landfills and trash compactors. Its ability to be applied through the 24/7 feed pump makes it a versatile option.

#### TC-2000™

With its biological formula, TC-2000 was developed to digest waste and eliminate odors at their source in dumpsters, compactors and trash chutes. TC-2000 utilizes the Morning Fresh™ fragrance and SE-500® technology to neutralize odors.

#### DumpStar™

DumpStar is made up of super-concentrated, absorbent granules that eliminate the toughest odors in dumpsters, compactors and trashcans. The granules produce a pleasant citronella scent that repels insects while also absorbing liquids.

#### 24/7™ Air Care System

The 24/7™ Air Care System is designed to work around the clock to eliminate tough odors. The heart of the system is a programmable pump that mists product to eliminate odors at their source. The 24/7™ system is ideal for trash chutes, trash compactors, dumpsters and other problem areas where continuous odor elimination is essential.

#### Fragrance Central™

The State® Fragrance Central™ is an HVAC-compatible ambient scenting system that provides invisible aromatic coverage to virtually any space, even up to 750,000 cubic feet. Enhance the mood and increase the Satisfaction of your customers, employees or residents by incorporating a scent into your environment.

# Fragrance Selection
