- Effective at all temperatures to minimize energy costs
- Effectively removes all food soils including high protein loading
- Non-foaming for fast rinsability

YOUR CLEAR RESULTS PARTNER®

MACHINE DETERGENT

Machine Dishwashing Detergent

Avance™ Machine Detergent is effective in both low and high temperature machines. Avance Machine Detergent effectively removes difficult food soils with minimal foaming even in high protein loading conditions. Avance Machine Detergent is non-chlorinated.

FEATURES:

- Heavy duty alkaline formula
- Contains water conditioners
- Enhances rinse additive performance
- Contains dispersant to control food soils adherence
- Controls water mineral build-up on machine
- Compatible with sanitizer carry over

DIRECTIONS

Avance Machine Detergent is designed to be dispensed with equipment installed and/or approved by your State Cleaning Solutions representative. Good product performance is dependent on many operational factors such as soil load, water temperature, type of soil, wash procedures, injection and mechanical action in the machine. Your service representative will evaluate your soil load and warewashing machine to determine the correct product dosage for your system that will optimize product performance. Typically, Avance Machine Detergent is automatically metered into the dish machine at a rate of 5 - 10 milliliters per rack.

Please review label and SDS for all product directions, precautions and first aid information

TECHNICAL DATA

APPEARANCE: clear red liquid

pH (Concentrated): > 13.5

DENSITY: 9.4 lbs/gal
