

AIR CARE *Solutions*

Odor Beaders™ Air Freshener

- Powerful aromatic beads in air-flow mesh bags
- Convenient for all spaces
- Safe for use in air ventilation systems

CARE FOR WORK ENVIRONMENTS®

Odor Beaders™

Air Freshener

SE-500® ODOR ELIMINATING TECHNOLOGY

Odor Beaders are small mesh bags filled with powerful aromatic beads. Unlike other odor control products that simply mask foul odors, Odor Beaders are formulated with State's SE-500 odor neutralizing agent.

SE-500 binds with odor molecules to neutralize them at the source. Foul odors are changed at the molecular level and replaced with a specially formulated scent to provide a pleasant fragrance.

SPECIAL "AIR-FLOW" BAG

The beads are packaged in an innovative "air-flow" bag. The bag is constructed of air permeable nylon mesh to release the fragrance, not the beads. As air flows through the bag, it carries the fragrance throughout the area.

CONVENIENT PACKAGING

Each bucket has a resealable lid and contains 24 Odor Beaders bead bags. The buckets can be placed on housekeeping carts or in custodian closets for convenient storage and easy accessibility.

APPLICATIONS

The soft packets offer flexibility and can be used in many applications. They are ideal for industrial and institutional applications.

PLACE THEM IN:

- vacuum cleaners
- air conditioners
- ventilation ducts
- decorative plants
- wet/dry vacs
- hampers
- drawers
- buses
- cars
- boats
- trucks
- campers

... anywhere that needs freshening!

Odor Beaders are effective for 14-28 days, depending on the application. One to two Odor Beaders placed in the right locations can provide complete odor control for up to 2,000 cubic feet or 57.5 cubic meters.

"BEAD BIN" MOUNTABLE DISPENSER

Use State's "Bead Bin" dispenser to mount Odor Beaders on the back of doors, under garbage can lids, or in restrooms and closets for maximum room deodorizing. The double-sided tape on the back of the dispenser attaches quickly to any smooth surface, making installation easy. Once in position, it can easily be opened to replace the Odor Beader. Slotted vents in the rear of the dispenser make it ideal to mount over any type of air vent for air circulation. One bin is provided with a bucket. Additional bins are available.

ENVIRONMENTALLY FRIENDLY

Odor Beaders are safe for the environment. They contain no chemicals harmful to the environment and are completely recyclable.

TECHNICAL DATA

CITRUS GREEN TEA

FRAGRANCE: citrus
COLOR: neon green

MORNING FRESH™

FRAGRANCE: herbal citrus
COLOR: bright green

SWEET SUNSATIION™

FRAGRANCE: candied apples, melons and pears
