

GENERAL CLEANING *Solutions*

Lime Solvent Rust & Scale Remover

- Dissolves lime, calcium and other organic-based scale
- Effectively cleans walls, grout and floors as well as utensils, glassware and coffee urns
- NSF-A3 certified for use in federally-inspected food processing plants

CARE FOR WORK ENVIRONMENTS®

Lime Solvent Rust & Scale Remover

SCALE REMOVER

Lime Solvent completely dissolves scale, converting it into a liquid form that can easily be flushed away with water. It is effective against lime and calcium buildup as well as soap scum.

WHERE TO USE

Lime can be used on walls, floors, utensils, glassware and coffee urns to effectively remove scale, film and water stains.

Lime Solvent works as a grout cleaner as well. It can be used to remove soap scum and residue from shower stalls, terrazzo and clay tile surfaces. It's also great for cleaning stainless steel surfaces.

AUTHORIZATION

NSF certified for use in Federally inspected meat and poultry plants. Category A3 acid cleaner.

DIRECTIONS FOR USE

GENERAL CLEANING: Mix 4 to 10 oz of Lime Solvent with 1 gallon of water. Apply solution to the hard surface - scrub with a brush, then thoroughly rinse until clean. Food contact surfaces must be rinsed thoroughly.

EQUIPMENT

Air conditioners, boilers, tanks, ice machines, etc. Drain the equipment if necessary. Fill with fresh water to 2/3 capacity. Add 1 part of Lime Solvent for every 3-6 parts water in the unit. Let the mixture circulate or remain in contact with the scaled surfaces for 50-60 minutes. For heavy scale, repeated treatment may be necessary. After descaling is complete, drain out the solution and flush the unit thoroughly with fresh water. Use rubber gloves when handling.

NOTE

Do not use on nickel plated or galvanized surfaces.

Please review label and SDS on stateindustrial.com for all product directions, precautions and first aid information.

TECHNICAL DATA

APPEARANCE: clear, colorless liquid

SPECIFIC GRAVITY: 1.05

PRODUCT TYPE: acid (organic and inorganic blend)

pH 3% SOLUTION: 2.2

SHELF LIFE: two years
