

CLEANING *Solutions*

SNAPOUT™

**Concentrated Foaming
Bathroom Cleaner**

- Powerful acid formula produces a thick foam to blast away soap scum and soils
- Safe on plastic, fiberglass, chrome and normal grouting
- Super concentrated for economical use with State's One Solution™ dilution system

CARE FOR WORK ENVIRONMENTS®

SNAPOUT™

Concentrated Foaming Bathroom Cleaner

CLEANS THE EASY WAY

Snapout™ puts an end to tiresome, hard scrubbing of bathroom surfaces. Its non-scrub action foams away even the most stubborn soap scum, hard water deposits, dirt, film and residue.

CLINGS AND CLEANS LONGER

The secret to Snapout's effective cleaning action is a thick, supercharged foam that clings wherever it's sprayed. Bubbling foam penetrates into surface pores to lift out embedded soil. Snapout holds soil in suspension for easy removal. Just rinse it off.

ECONOMICAL AND SAFE ON SURFACES

Other cleaners can thin out and run away, requiring repeated, money-wasting applications. Snapout's dense foam cloud provides full-strength cleaning power from start to finish. Snapout is super concentrated. It's as strong as you want it to be, depending on the dilution ratio used. A small volume of liquid creates a rich wave of foam that sweeps away soil.

It's non-abrasive formula will not damage surfaces. It's even safe on plastic, fiberglass, chrome and normal grouting.

VERSATILE

Let State Snapout do the work on and around:

| | | |
|----------------|--------------|--------------------|
| Shower rooms | Tubs | Toilets |
| Shower stalls | Partitions | Veterinary offices |
| Swimming pools | Counter tops | Kitchens |
| Hospitals | Laboratories | Locker rooms |

DIRECTIONS FOR USE

1. Adjust cleaning strength to the job:

| JOB | State SNAPOUT | WATER |
|-------------|---------------|----------|
| Light-Duty | 1 part | 32 parts |
| Medium-Duty | 1 part | 20 parts |
| Heavy-Duty | 1 part | 10 parts |

NOTE: To extend chemical action, use warm water.

2. Use State's One Solution™ Sidekick Foamer to spray Snapout onto surface.
3. Let foam penetrate and loosen soil for a few seconds before wiping away with sponge or cloth.
4. On extremely soiled areas, brush in the foam. Once a surface has been returned to normal maintenance conditions, simply foam State Snapout on and wipe off.
5. Always rinse thoroughly after applying.

NOTE: Do not use on polished aluminum, marble, or special colored grout. Always pretest on small hidden area before using the product to be sure the surface will not be affected. State Snapout may etch some old sinks and tubs. Do not use on nickel plated or galvanized surfaces.

Please review label and SDS for all product directions, precautions and first aid information.

TECHNICAL DATA:

APPEARANCE: clear, yellow liquid

ODOR: mild

pH (undiluted): 1.5 pH (diluted 1:20) = <2.0

ACID TYPE: sulfamic and citric acid blend

STABILITY: minimum one year
